**DETAILED ACTION**

***Response to Arguments***

Applicant's arguments with respect to claim 1-12 have been considered but are moot in view of the new ground(s) of rejection.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Maher et al (US 4,853,653).

Regarding claim 1, Rangan teaches a method of selecting a signal among N signals (see abstract), the selection taking place in that a validation signal associated with the signal to be selected is placed in an active state by means of a selection signal (col. 1, lines 61-65), which method includes an attribution step in which the state of the associated selection signal is attributed to each of the validation signals, which attribution step is carried out responsive to all the validation signals being in an inactive state (see col. 1, line 66- col. 2, line 23).

***Allowable Subject Matter***

Claims 4 and 5 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2684

Regarding claim 4, it has been amended to overcome 112 rejection and further includes previously allowable limitations presented in independent claim 2.

Claims 2, 3 & 6-12 are allowed.

The following is an examiner's statement of reasons for allowance:

Regarding claims 2, 3 and 6, see reasons for allowance in office action dated 6/15/04.

Regarding newly added claims 11 and 12, they depend on allowed claim 6 and therefore allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 2684

however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
